Download Windows 8 End User Training Brochure from ... Windows has been reimagined to be all about you and your style of working. Put what matters most right on your Start screen, and get instant access to your people, apps, sites, and more, so you can spend less time searching and more time doing. Adding and Managing Users in Windows 8 | PCWorld In Windows 7 and other prior versions of Windows, youâ€™d simply click on Start, open up the Control Panel, and select the option to manage the user accounts. In Windows 8, though, there is no Start button, and thereâ€™s also no direct way to get to the Control Panel. Create a user account in Windows - Windows Help In the left pane of Microsoft Management Console, click Local Users and Groups. If you don't see Local Users and Groups, it's probably because that snap-in hasn't been added to Microsoft Management Console. Follow these steps to install it: In Microsoft Management Console, click the File menu, and then click Add/Remove Snap-in.

Adding and Managing User Accounts in Windows 8 - Lifewire Windows 8 users will have to return to the Control Panel to remove user accounts from their computer. Once in the Control Panel, select User Accounts and Family Safety. Next, click Remove user accounts where it appears beneath User Accounts. How to create a new user account in Windows 8 Windows 8 allows multiple users to share the same computer using different accounts. This allows each user to have their own location where they can store personal information such as documents. How to Add Windows 8.1 Users - dummies The first account on a new PC is always an administrator account. If you bought your PC with Windows 8.1 pre-installed, the account that you have â€” the one you probably set up shortly after you took the computer out of the box â€” is an administrator account. If you installed Windows on a PC, [â€!].
